## Join HeartCorps

Jump start your career in public health with the American Heart Association and Ashtabula Regional Medical Center!

**HeartCorps** is a Public Health AmeriCorps service opportunity for those interested in gaining valuable professional experience while advancing more equitable health outcomes for rural communities.

People in rural areas live three years fewer than people in urban areas, with rural areas having higher death rates for heart disease and stroke.

Additionally, many rural communities face a critical shortage of health care professionals, including public health workers, which negatively impacts access to care.

**HeartCorps Service Members** will serve in-person and gain valuable experience supporting, developing, and implementing programs and education around high blood pressure, nutrition security, CPR/cardiac readiness and smoking cessation.

**Full Time Service placements start on: February 10, 2025**

### Service Member benefits include:

- A bi-weekly living stipend of \$1108.70 (pre-tax) for full-time members.
- A \$3697 educational award upon completion of full-time service (900 total hours).
- Healthcare benefits and a childcare subsidy if eligible
- Professional development
- Direct access to job opportunities upon successful completion of the program.
